

# ACHIEVING THESE OUTCOMES IS NOT EASY.

- UP TO \$1.4 MILLION COST REDUCTION PER YEAR, PER FACILITY<sup>1</sup>
- MRSA BACTEREMIA INFECTION RISK REDUCTION BY UP TO 96%<sup>1</sup>
- PATIENT ISOLATION AND STAFF TIME DECREASE
- UP TO 40% LESS PPE USE<sup>1</sup>

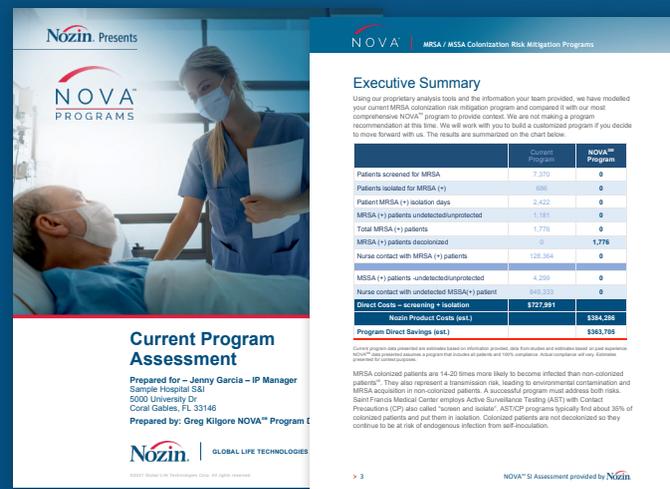

## WE CAN HELP GET YOU THERE.

### Start a Free Assessment and find out more.

Facilities like yours are reporting these positive results. They have done so after implementing the proven approach of Nozin NOVA<sup>SM</sup> MRSA / MSSA colonization risk mitigation programs.

Hundreds of hospitals across the country are realizing outstanding benefits. Every facility is different, so we customize a program for each by leveraging our expertise and proprietary analytical tools.

With a few data points from your clinical team, an assessment for your facility can determine the potential patient care impact and cost savings of a Nozin NOVA<sup>SM</sup> program. This service is free and will help determine the MRSA / MSSA colonization risks your patients are exposed to and how well your current program addresses these risks.

**Executive Summary**

Using our proprietary analysis tools and the information your team provided, we have modeled your current MRSA colonization risk mitigation program and compared it with our most comprehensive NOVA<sup>SM</sup> program to provide context. We are not making a program recommendation at this time. We will work with you to build a customized program if you decide to move forward with us. The results are summarized on the chart below.

	Current Program	NOVA <sup>SM</sup> Program
Patients screened for MRSA	7,370	0
Patients isolated for MRSA (+)	886	0
Patient MRSA (+) isolation days	2,422	0
MRSA (+) patients undetected/unprotected	1,941	0
Total MRSA (+) patients	1,776	0
MRSA (+) patients decolonized	0	1,776
Nurse contact with MRSA (+) patients	128,364	0
MSSA (+) patients undetected/unprotected	4,299	0
Nurse contact with undetected MSSA (+) patient	849,932	0
<b>Direct Costs – screening + isolation</b>	<b>\$727,891</b>	<b>\$364,288</b>
<b>Nozin Product Costs (est.)</b>		<b>\$364,288</b>
<b>Program Direct Savings (est.)</b>		<b>\$364,288</b>

# OUTCOMES REPORTED BY FACILITIES EMPLOYING NOZIN NOVA<sup>SM</sup> APPROACH

Independent hospital research.

## \$589,420 Savings

estimated reduction in infection related costs driven by reduction of 17 SSIs over a 6-month period at a single facility.<sup>1</sup>

## \$1,394,685

total cost avoidance over 12 months.<sup>1</sup>

## Zero Infections

total knee SSIs during the 12-month study period.<sup>1</sup>

## \$64,350 PPE reduction

annual cost savings.<sup>1</sup>

**NOVA<sup>SM</sup> is powered by #1 brand in daily nasal decolonization**

### Product SKUs and Ordering Information

SKU	Description	UOM	UOM/Box	UOM/Case	Recommended Applications
NNS10001	Nozin <sup>®</sup> Nasal Sanitizer <sup>®</sup> advanced antiseptic for daily patient nasal decolonization. Single-use Popswab <sup>®</sup> ampules. Barcoded.	1 ampule	250	250	Patient use Facility provides own dispenser
NNS10200B	Nozin <sup>®</sup> Nasal Sanitizer <sup>®</sup> advanced antiseptic for daily patient nasal decolonization. Single-use Popswab <sup>®</sup> ampules. Barcoded. Dispenser box.	1 ampule	200	400	Patient use To be dispensed directly from package box
NNS10250	Nozin <sup>®</sup> Nasal Sanitizer <sup>®</sup> advanced antiseptic for staff and visitor daily nasal decolonization. Single-use Popswab <sup>®</sup> ampules. Dispenser box.	1 ampule	250	500	Visitors and staff use To be dispensed from package box
NNS40002	Nozin <sup>®</sup> Nasal Sanitizer <sup>®</sup> advanced antiseptic. Patient Pre-Op pack includes two prefilled Popswab <sup>®</sup> single-use ampules.	1 pack/2 ampules	1 pack/2 ampules	100	Patient use Day of surgery Pre-Op nasal decolonization
NNS11212	Nozin <sup>®</sup> Nasal Sanitizer <sup>®</sup> advanced antiseptic for patient and caregiver, long-term use. 12 mL multi-use bottle, 20 cotton swabs.	1 bottle	1	12	For patients and HCW at-home use
